**Aluminum &
Custom Wood**

**Automated Entry
Systems**

**Residential Driveway Gates
Gated Communities
Commercial and Industrial
Security Gates**

1-755 Vanalman Avenue, Victoria, British Columbia

Whether you need existing gates automated, or are starting from scratch, we can offer you the best price value and product available.

Questions to answer:

What is the width of your driveway?

This will help determine the type of gate you may need to use. (single swing, double swing or slider).

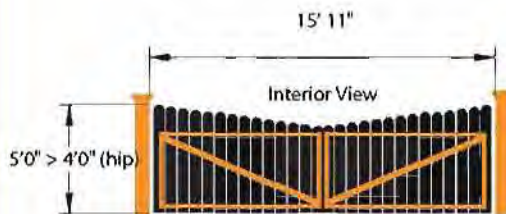

Next, choose a design. You can select from one of our standard models or design your own.

Are you going to use steel posts or have pillars built?

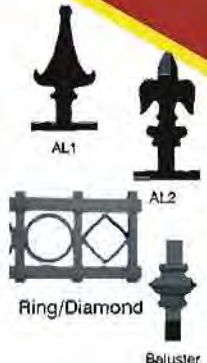

Have you made allowances for electrical requirements. We can supply you or your electrician with the specifications.

What about pedestrian traffic? Will you need a pedestrian gate?

If you are considering automation - think about how "automated" you want your system to be.

From Design... to Installation
